LEATHEREDITIONS
CRAFTED BY PASSION

LEATHEREDITIONS
CRAFTED BY PASSION

A LONG STORY OF SUCCESS.

In 1959, a young Italian craftsman, Pasquale Natuzzi, opened a small furniture workshop in Taranto, a lovely seaside town in the Puglia province of southern Italy. That was more than 50 years ago. Today, that small company, started on a dream and a shoestring, has grown to become The Natuzzi Group, the world leader in leather upholstered furniture, selling a wide range of products in more than 123 countries on five continents.

**PASSION AND
CRAFTSMANSHIP
FOR THE BEST
OF QUALITY.**

Leather Editions is one of three brands manufactured by The Natuzzi Group. Its product line is founded upon a unique and exciting brand concept. It is the first, and only, line of leather furnishing completely designed in Italy, and built on a global basis for the particular tastes, desire for comfort, proportions and demand for value that market appreciate and expect.

HANDMADE TRADITION FOR LASTING BEAUTY.

All Leather Editions products are designed in Italy by a dedicated group of professionals. Every year, literally hundreds of designs are prototyped and tested, but about one in fifty make it through the rigorous process to the production phase. All components are made in our own factories according to Natuzzi Group specifications and quality standards. A constant

effort, confirmed since 1995, throughout the ISO 9001 System of Quality certification, and reconfirmed in December 2001 when the Company received the ISO 14001 Certification for Environmental Control and furthermore in July 2003 with the Certification of the Integrated Management System Quality-environment ISO 9001/2000.

THE LEATHER LEADER

The Natuzzi Group selects only the very best hides from around the world and processes them in Italy and its global tanneries produce the finest leather upholstery available.

It's a time-consuming and labor-intensive process requiring more than 23 steps from tanning to dyeing to final finishing. That means when you select a Leather Editions product you are getting a superior leather product that is absolutely consistent throughout.

Nothing quite compares to the enduring beauty of leather. Supple, strong and organic, it outwears fabric by four to one and actually improves in appearance as the years pass. And only leather can provide the unique combination of comfort, durability, visual drama and value that can enhance any lifestyle. Cool in summer and warm in winter, leather is easy to care for and easy to fall in love with.

PROTECTA LEATHERS FOR ACTIVE HOMES.

Protecta Leathers are perfect for active lifestyles and homes with small children and pets. Supple, strong and coated with an invisible protective layer that guards against spills, stains and signs of age without affecting the natural beauty of the leather, Protecta offers uniform color and a sleek appearance. The protective coating makes Protecta Leathers easy to clean and maintain. In fact, most spills require nothing more than a bit of mild soap and water.

NATURAL LEATHERS: THE ORGANIC CHOICE.

The choice for those who love and appreciate the natural beauty of leather, Natural leathers retain the characteristics of a hide's graining, veining, tiny wrinkles and variations in color. These variations mark this completely natural material as one of authentic beauty that results in a distinctive and elegant look that mellows with time.

THE ESSENCE OF COMFORT AND INNOVATION.

Absolute comfort and sophisticated design, that deliver the ultimate in relaxation. That describes the Leather Editions philosophy when it comes to creating motion sofas and chairs.

Each is built with strict attention to detail and the best structural mechanisms to ensure years of trouble-free enjoyment.

This sofa, ergonomically tested for comfort, features a new recliner function. Same power motion firstly moves head-rest to reach maximum mechanism extension with seat and footrest. Within 9 seconds opening mechanism you can find comfort that best fits your need.

ENDLESS POSSIBILITIES

FOR YOUR HOME AND LIFESTYLE.

Leather Editions offers a wide selection of Italian-designed leather furnishings to suit your life and sense of style. In styles ranging from transitional to contemporary and casual, our sofas, sectionals, chairs, loveseats, ottomans, recliners and sofa beds are available in an endless array of fashionable colors and combinations.

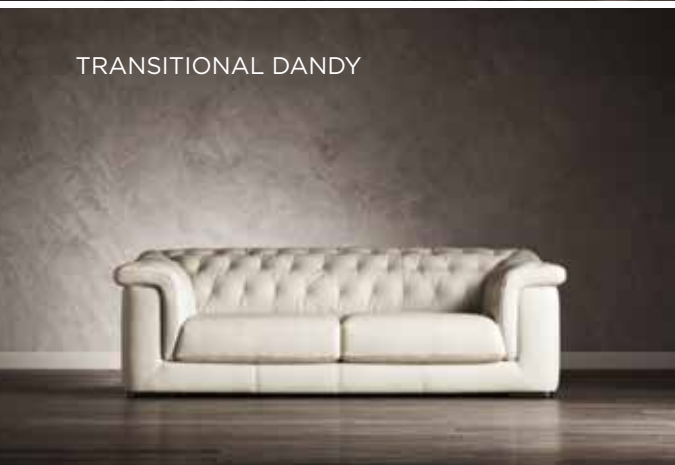

LEATHER EDITIONS AND ITS COLOR WORLD.

Research is central to the Leather Editions world. That's why styles are analyzed in advance with the scope of anticipating and then aligning to trends. Analyzing color is fundamental for Leather Editions. In fact, the Leather Editions Design center has created a protocol to scientifically connote ideal tones for the sofas in the collection. The color world that is identified becomes a variable tied to the type of sofa: casual comfort and contemporary or transitional amber and dandy.

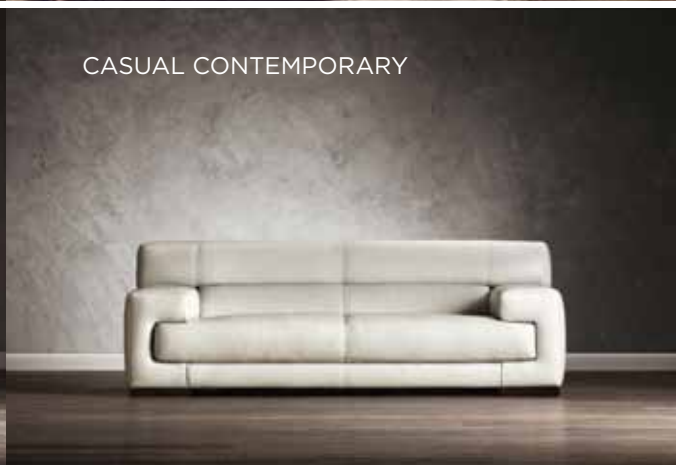

The casual line is characterized by a colder and more minimalistic color palette to adapt to the modern, more square shapes of the sofas while the transitional line, more classic, is distinguished by its warmer, more cocooning tones. The artist who perfectly represents the chromatic style of Leather Editions Collection is Giovanni Boldini. The use of colours in his paintings based on a marvelous palette of neutrals inspired the brand.
